2600 Blair Stone Road
Tallahassee, Florida 32301

SUBJ: Pier Property Drum, Bradenton, Florida

Dear Mr. Lee:

On January 10, 1995, the U.S. Environmental Protection Agency's Emergency Response and Removal Branch (ERRB) conducted a site investigation for potential removal action eligibility under the National Contingency Plan (NCP) at the above referenced site. Results from the investigation were evaluated using criteria from Section 300.415 of the NCP and current ERRB program guidance.

Based upon ERRB's initial review of the available information, the site has been designated as a high priority for a potential removal action. Chuck Eger, ERRB On-Scene Coordinator (OSC), has been assigned to the site. The OSC will review the site evaluation and current site conditions and make a final determination of the appropriateness and extent of removal actions to be taken at the site. For all removal actions an Action Memorandum outlining the site threats and removal activities will be prepared by the OSC and a copy forwarded to the State. Should the OSC make a final determination that a removal action is not warranted, you will be subsequently notified of the change in prioritization of the site.

Should you have any questions concerning ERRB's determination, please contact Mr. Chuck Eger, On-Scene Coordinator, at (404) 347-3931 extension 6134 or Mr. Shane Hitchcock, Chief of Removal Operations Section, at (404) 347-3931 extension 6122.

Sincerely,

Myron D. Lair, Chief
Emergency Response and Removal
Branch
